Summer Term 2019

Friary Road Closure

Your council has been working closely with St Francis Primary RC School to improve road safety and air quality around the school. The school has led several behaviour change campaigns to encourage the use of sustainable travel and safer driving during school drop off and pick up, but we are aware that despite these efforts road safety is still an issue.

As a result, from next term, we will be piloting a road closure for all motor vehicles on Friary Road during school peak times.

The trial will commence from

Monday 10th June 2019

and will be in force until the end of the

Summer Term. This period may be extended depending on the success of this initial trial. The closure will not be enforced during school holidays and weekends.

The maximum length of the closure each day will be

8:00-10:00 and 14:30-16:30

but this may be reduced by the school depending on demand.

A physical barrier will be used to enforce the restriction.

Parents are asked to consider travelling to school using active travel or public transport. If it is necessary to drive to school please consider using appropriate local parking provisions and then walking to the school site.

The council and the school believe this experiment will improve road safety and air quality, as well as encourage pupils and parents to travel sustainably to school which should make for a more pleasant local environment for everyone. If you have any feedback regarding this trial closure, please email highways@southwark.gov.uk.

Feedback from the school community is important to us and helps shape how any final scheme works. To find out more information about the Southwark School Streets programme you can go to www.southwark.gov.uk/schoolstreets.
